ABOUT ME

I am a dedicated Lecturer, Researcher, and Software Developer at **Injibara University**, Ethiopia, with over six years of professional experience spanning higher education, Computer Science, academic leadership, and applied research. I hold MSc and BSc degrees in Computer Science from Wollega University. My research interests include Explainable Artificial Intelligence (XAI), Machine Learning, Deep Learning, and Software Engineering, with particular emphasis on Software Architecture, Requirements Engineering, and Database Design. I also have research interests and practical experience in AI-driven healthcare solutions, Internet of Things (IoT), Smart Systems, and Data Science, focusing on developing intelligent, secure, scalable, and sustainable technological solutions to address real-world challenges. Beyond my academic and research responsibilities, I have extensive experience in designing, developing, supervising, and deploying practical software solutions. I served as Team Leader, Technical Supervisor, and Lead Backend Developer for the **Employee Performance Evaluation Management System** , a software product currently utilized by Injibara University and recognized through **intellectual property rights** from the ***Ethiopian Intellectual Property Rights Office***.I am also the developer of the **Student Information Management System (SIMS)**, a comprehensive school management platform designed to support educational institutions from Kindergarten through Grade 12, which has been deployed in Addis Ababa since 2017 E.C. My other software development contributions include a professional personal website for a professor at Injibara University and a full-featured corporate website and Content Management System (CMS) for **Sterling Service Corporation Group**, based in the United States.In research, I have contributed to scholarly publications, including my 2026 publication, *Amharic Chatbot for Diet Healthcare Consultation Using Deep Learning*, published in the *Journal of Computer Allied Intelligence* (Andualem Muche et al.). I have also contributed to academic conferences as a research paper presenter, reviewer, and session chairperson.I am passionate about bridging academic research and practical technological innovation by transforming research ideas into impactful software products and intelligent systems that address institutional, educational, and societal challenges.
